

TruKon[®]S

THE ULTIMATE CONTROL

NOT FOR HUMAN USE - FOR ANIMAL USE ONLY

TRUCON is the ultimate disinfectant formulation to meet the right standard for farm bio security with powerful, proven performance against over 500 strains.

COMPOSITION

Potassium Salts of Peroxygen compound : 50% w/w
 Sodium Chloride Organic Acids, Surfactants : 1.5% w/w
 Buffer & Excipients : q.s. To 100%
 Colour : Amaranth

SPECIAL FEATURES

- Non corrosive. No environmental residue problems, exceptionally low toxicity.
- Safe water sterilant.
- Suitable for manual and machine application.
- Can be used in all types of farms, hatcheries and processing plants.
- Safe for use with all types of animals and birds.

TRUCON is convenient for:

Equipment Vehicle Surfaces Aerial disinfection
 Water delivery system

Organic challenge threatens serious problem to the efficacy of other disinfectants, whereas "TRUCON S" provide assurance against all challenge.

Mode of action-

"TRUCON S" oxidises sulphur bonds in proteins and enzymes, disrupting the function of the cell membrane causing rupturing of the cell wall.

USAGE

Use	Dilution Rate	Application Rate
Terminal Virus Control	1:100	200-300 ml/m ²
Cleaning & Disinfecting Equipment	1:200-1:100	300-400 ml/m ²
Sanitizing & Disinfecting Equipment	1:400	
Continuous Water Sterilization	1:1000-1:500	
Fogging	1:100	Apply 1L of solution per 100m ³
Aerial Disinfection	1:200	Apply sufficient to fill the atmosphere with a fine mist approx. 1L of solution per 100m ³ of air space

DILUTION CHART

Quantity of Disinfectant solution required	Dilution rate required			
	1:100	1:200	1:500	1:1000
	Quantity of "TruKon S" required			
	1:100	1:200	1:500	1:1000
10 L	100g	50g	20g	10g
20 L	200g	100g	40g	20g
50 L	500g	250g	100g	50g

For spray use 5 gms. / ltr. of water (1:200)
 For Sanitizing use 2 gms./ltr. (1:500)

PRESENTATION
 500 Gms & 1 Kg.
